SUMMARY

Passionate Full-Stack Machine Learning Engineer who loves turning ideas into real, working products — from clean APIs and data-driven backends to polished, responsive UIs. Deeply interested in AI/ML integration and smart-city tech, with hands-on experience building production-grade full-stack applications and competing at national-level hackathons. Currently pursuing B.Tech in Computer Science at IIIT Kottayam. Open to internships and full-time opportunities where I can build intelligent, impactful software and grow fast.

EDUCATION

Indian Institute of Information Technology Kottayam

2024 – 2028

B.Tech – Computer Science & Engineering · Kerala, India · CGPA: 8.08

St. James Academy

2016 – 2024

Higher Secondary – Computer Science · Tamil Nadu, India · Grade: A1

– JEE MAINS 2024: 96.20 Percentile

HACKATHONS & ACHIEVEMENTS

Technothon – Aayam 2026 | NIT Agartala

Top 5 Finalist — Presented UrbanShield, a real-time smart-city safety and traffic intelligence platform, competing against teams from across the country at this national-level hackathon.

AI4Dev '26 | PSG College of Technology, Coimbatore

Finalist — Selected for the national-level offline round at PSGCT, Coimbatore, presenting an AI-driven smart-city solution to an industry panel.

Code Kalari Hackathon | IIIT Kottayam

Participated in the hackathon conducted by IIIT Kottayam, building a competitive solution under time-constrained conditions.

PROJECTS

Multi-LLM Evaluation Framework – National Hackathon Top 25 Finalist

2025

Python · LLM APIs · React · Dashboard · NLP · Benchmark Evaluation

- Top 25 finalist out of 1,233 teams at a National Level Hackathon, with the finale held at PSG College of Technology, Coimbatore.
- Built a framework that runs multiple LLMs on the same benchmark dataset and evaluates outputs against a reference model on accuracy, reasoning, factuality, hallucination rate, and instruction-following.
- Implemented cross-model contradiction detection, self-consistency checks, and confidence scoring using upvote/downvote probability across domains and difficulty levels.
- Delivered a unified dashboard showing which model performs best for a specific task and why, enabling data-driven LLM selection.

UrbanShield – Smart City Safety & Traffic Intelligence Platform

2025

React · FastAPI · WebSockets · Firebase · Leaflet/OpenStreetMap · SQLAlchemy · Python

- urbansheild.vercel.app · github.com/thenameisyashwanth-sudo/urbansheild
- Built a full-stack smart-city dashboard unifying traffic monitoring, emergency response, and citizen safety into a single real-time platform.
- Implemented live WebSocket feeds for traffic updates, incident tracking, and dynamic emergency corridor routing.
- Engineered Silent SOS and Safe Travel modules with automated escalation on inactivity and route deviation.
- Designed a Leaflet + OpenStreetMap geospatial UI with congestion heatmaps and live incident overlays.
- Architected modular FastAPI + SQLAlchemy backend — built to plug in real traffic APIs, 112 emergency, and IoT feeds.

FareSplit – AI-Powered Expense Splitting Platform

2025

React · Vite · TailwindCSS · Firebase Auth + Firestore · Node.js · Express · Framer Motion · Recharts

- faresplit-rose.vercel.app · github.com/thenameisyashwanth-sudo/faresplit
- Shipped a full-stack group expense platform with real-time sync, Google auth, and Splitwise-style settlement logic.
- Implemented a greedy debt-minimization algorithm that reduces total transactions needed to settle a group.
- Built an extensible Node.js + Express backend with AI endpoints for receipt OCR and voice-based expense entry.
- Added UPI-style payment flow generation for frictionless settlements for Indian users.

MovieHunt – Movie Discovery Web App

2025

React · Next.js · Bootstrap 4 · TMDB API · React Router DOM

- lustrous-banoffee-75d1f7.netlify.app
- Built a fast, SEO-friendly movie discovery app with live TMDB data — posters, ratings, genres, and cast.
- Delivered SSR with Next.js and smooth client-side navigation via React Router DOM.

WORK EXPERIENCE

VaultOfCodes · Frontend Developer Intern

Aug – Sep 2025

Remote · React.js, Next.js, Bootstrap 4, TMDB API

- Engineered MovieHunt — a production-deployed movie app with SSR, dynamic routing, and REST API integration.
- Built reusable component library with React; achieved responsive design across all screen sizes using Bootstrap 4.
- Optimised page load performance through code splitting and lazy loading with Next.js.

Jeyram Educational Trust · Web Developer Intern

Jun – Jul 2025

Tiruchirappali · React JS, JavaScript, HTML/CSS

- Designed and shipped responsive web applications for a government-funded digital education platform used by students and educators.
- Refactored legacy static pages into modular React components, cutting update effort and improving page performance.
- Integrated external APIs and delivered mobile-first interfaces under sprint timelines with cross-functional teams.

SKILLS

Frontend	React JS, Next JS, Vite, TailwindCSS, Bootstrap 4, Framer Motion, Leaflet, Recharts
Backend	Node.js, Express, FastAPI, SQLAlchemy, WebSockets, REST APIs
Languages	Python, JavaScript, C, C++, Java

Databases	MySQL, PostgreSQL, MongoDB, Firebase Firestore
Tools	Git, GitHub, Vercel, Netlify, Firebase Auth, OpenStreetMap, TMDB API
Interests	Machine Learning, AI Integration, Smart City Tech, Full-Stack Architecture

LANGUAGES & VOLUNTEERING

English	Tamil	German
Fluent	Fluent	Elementary (A1)
Telugu	Hindi	Malayalam
Conversational	Conversational	Conversational

Student Representative · IIIT Kottayam 2024 – Present

- Bridged communication between faculty and students; managed class coordination, conflict resolution, and campus activities.

CLUB ACTIVITIES

GDG IIIT Kottayam · Tech Team Member Aug 2025 – Dec 2025

Google Developer Groups · On-Campus Chapter

- Contributed to the Tech Team by organizing and conducting technical workshops, study sessions, and knowledge-sharing events for the student community.

Chitrachaya · Videography Sub-Lead 2024 – Present

Photography & Videography Club · IIIT Kottayam

- Led videography operations for campus events, managing shoot planning, equipment handling, and post-production for official club content.
